

DONE FOR YOU AI EMPLOYEES

You find their best client. We make sure every lead like them gets answered in 60 seconds.

Infinity Reach Media builds AI employees that answer new leads, qualify them, follow up, and win back past customers. The owner stops chasing and starts working on the business instead of in it.

WHERE WE FIT IN YOUR 30 DAY PLAN

1 BRAD

Calendar to Cash shows the owner who their best client is and the path to ten more.

2 YVETTE

We plug the leaks on that path with AI employees for instant replies, qualifying, follow up and reactivation.

3 TOGETHER

One shared plan, a warm handoff. If anything needs adjusting, you and I talk first so the client never feels stuck.

THE FOUR LEAKS WE PLUG

SLOW REPLY

Jessica, AI Sales Rep. Replies to forms, DMs and texts in under 60 seconds, qualifies like a human would, then hands a warm lead to the owner.

MISSED CALL

AI Receptionist. Answers 24/7, qualifies the caller and books the appointment.

FORGOTTEN LIST

Dead List Miner. Reactivates old leads and past customers, and keeps the conversation going until they book a call.

NO SHOW

Show Rate AI Employee. Reminders and one tap rescheduling so booked calls actually happen.

WHEN TO SEND SOMEONE MY WAY

- Their ad, form or DM leads wait hours for a reply
- They say "I'm not great at sales" or hate follow up
- They're sitting on a list of past leads nobody has touched in months
- They're buried in the inbox and missing the emails that pay
- Calendar to Cash shows them doing low value follow up a system could handle

Best fit clients

Agency owners

Coaches and consultants

HVAC, roofing and home services

Salons and med spas

Insurance agents

GUARANTEES WRITTEN INTO OUR TERMS

Live in 7 days

from the onboarding call, or the setup fee is refunded in full.

60 second replies

on average each month, or that month is credited.

10 booked appointments

from their existing list in 90 days, or campaigns keep running free.

Built on our own code, not a resold kit. Client data stays in the client's accounts. Approval mode is on from day one. Capped at twelve clients at a time.
